Transceiver TS-530
Grid Dip Oscillator
Antenna Gin Pole
Receiver FRG-7
Safety Belt

Survival of Amateur Radio Clubs in a Country Environment

As we are all aware the age profile of amateur radio enthusiasts is on the rise which poses a range of questions some of which will be mentioned in this article for the long term survival of some rural clubs in the future.

In the Ballarat area there are in excess of 100 amateurs. Of this number there are some that are not active for various reasons however the Ballarat Amateur Radio Group (BARG) can only muster 48 members.

BARG has its club rooms in one of the many huts located at the Ballarat Air Port and provides for members a meeting place, IRLP, Remote Base, Workshop, and maintains repeaters and beacons in the area.

We rely heavily on the Hamvention to raise funds to keep the club in a financial position to maintain these facilities. In addition we have an annual auction at the club rooms, have a monthly raffle at general meetings, sell raffle tickets, engage in sausage sizzles and receive financial donations all of which allow us to continue operation as a club.

However as explained above there are issues that need to be addressed to enable the club to continue into the future. Some of these are listed below.

- Given the current membership and the number of amateurs in the area how can we increase club membership
- How can the club generate sufficient revenue to maintain the current club set up
- In the event the club's viability is not possible what happens to it's assets.

In the past a suggestion was made to amalgamate hamfests and share in the profits to assist the financial status of rural clubs. BARG felt this was not the way to survival for us.

Although the statistics are not available for the Hamvention just concluded we believe the financial benefits gained far exceed those that would be gained from a group effort.

BARG also believes that our Hamvention is one of the best in Victoria and for that matter anywhere in VK however it's now time to revue our overall financial arrangements to ensure we survive will into the future.

73, Ian VK3AXH
